8. Main Content

This draft Order is intended to regulate the official names
and trade names of marine shellfish.

9. Brief Statement of Grounds

This text is necessary for the transposition of Directive
91/492/EEC relating to sanitary conditions in the production
and marketing of live shellfish. The Directive stipulates
the indication on the packaging of the scientific and common
names of the species. The draft Order is based on the
international classification system. It specifies the
official French name of each species, which must also be the
trade name. The latter is the same regardless of whether the
shellfish is alive or not.
