This Decree specifies the modalities for affixing health warnings established under Article 2 of Act No 2010-729 of 30 June 2010 suspending the marketing of all packaging containing bisphenol A and intended to contain food products, as amended by Act No 2012-1442 of 24 December 2012.

It specifies the nature of the health warning to be affixed to packaging containing bisphenol A intended to enter into direct contact with foodstuffs (whether they have or have not yet come into contact with the foodstuffs), the modalities for the implementation of the health warning as well as the future treatment of non-compliant products.

9. Brief Statement of Grounds

Health warnings are to be displayed over the transitional period running up to 1 January 2015, prior to the suspension of the manufacture, import, export and marketing either free of cost or for profit of packaging, containers or utensils containing bisphenol A intended to enter into direct contact with food products.

Its purpose is to inform consumers of food packaging that still contains bisphenol A and to warn against their use for pregnant and breast-feeding women and infants and young children.
