### 7. Notification Under Another Act

-

### 8. Main Content

The purpose of the Draft Order is to govern training centre operations, preliminary training and refresher and specialisation courses for private security personnel (security guards, explosives experts, chiefs of security, security managers, private bodyguards, special field guards, hunting guards, sea fishing guards and private detectives), as well as regulations concerning preparation, personal identity cards, professional identity cards and shooting identity cards, uniforms, arms, badges and protective items and, finally, the principles of deployment of said personnel and the obligation of collaboration with Security Forces.

### 9. Brief Statement of Grounds

The Draft Order is introduced to implement the provisions on "personnel" contained in the Private Security Regulations approved by Royal Decree 2364/1994 of 9 December, specifically for updating private security governance in terms of training, implementation and available media, with the ultimate purpose of performing roles of protection of people and property against acts of crime, in collaboration with the Security Forces.

### 10. Reference Documents - Basic Texts

No basic texts exist

### 11. Invocation of the Emergency Procedure

Yes

### 12. Grounds for the Emergency

The urgency derives from supplementing private security with public security, and from the need to adopt the most advanced techniques and procedures to guarantee the safety of citizens and public order. In other words, there is a pressing need to equip private security personnel and Security Forces with all the necessary tools to effectively combat new types and profiles of delinquency and organised crime, which now differ greatly from those of 1994.

Moreover, the Draft Order forms part a process of regulatory modification and innovation, the aim of which, from a coherent and systematic perspective, is to simultaneously drive the implementation of regulatory provisions affecting security companies and personnel, public institution security measures and the operation of alarm systems.
