5. Title

SP/ART/ST/NRT/03: "Technical Regulation applicable with a view to the conformity assessment of radio-electric equipment forming part of on-site paging networks"

6. Products Concerned

The products concerned are radio-electric equipment forming part of on-site paging networks.

7. Notification Under Another Act

-

8. Main Content

This technical regulation lays down the specifications and test methods with which radio-equipment forming part of on-site paging networks must comply.

9. Brief Statement of Grounds

This draft will replace technical regulation SP/DGPT/ATAS/23.

It implements European standard ETS 300 234 entitled "Radio equipment and Systems (RES); On-site paging service; Technical and functional characteristics for on-site paging systems,

including test methods".

The results of tests carried out in laboratories designated by the other Member States are recognised as valid in conformity with article R20-18 of Decree no. 98 266 of 2 April 1998 on the conformity assessment of telecommunications terminal equipment and the conditions governing the connection thereof.
