5. Title

Draft Royal Decree amending Royal Decree 1289/2003 of 7 March on the sale of forest reproductive material

6. Products Concerned

Forest reproductive material (seeds and plants) of forest species.

7. Notification Under Another Act

-

8. Main Content

- Determining whether forest reproductive materials produced within the country are subject to the same conditions, irrespective of their manufacturer.
- Simplifying procedures for the correct management of the National Register and National Catalogue of basic materials.
- Guaranteeing identification regarding the sale of clones permitted in the National Catalogue of basic materials, and keeping a reference collection.
- Adapting the role of supplier to Spanish Law 30/2006 on seeds, nursery plants and phylogenetic resources.
- Laying down a procedure for the trading of forest reproductive materials with less stringent requirements or imported from third world countries, from forest species incorporated by Spain into the European Union trading system.

9. Brief Statement of Grounds

Taking into account that forest reproductive material is a key factor in reforestation programmes, it is appropriate that its production be subject to the same requirements as those applicable to the sale of such materials.

Considering the attributions laid down in Law 43/2003 of 21 November on woodland, and particularly Article 54 on forest genetic resources, in order to simplify the Directorate-General of the Natural Environment and Forestry Policy's procedures regarding the National Register and National Catalogue of basic materials.

Laying down regulations authorising the sale, for a specific period, of the forest reproductive materials included

in Annex XII to the aforementioned Royal Decree which comply with less stringent requirements, and regulating imports from third world countries of the species included in this annex.
