8. Main Content

The draft Regulation forwarded has been drawn up with the aim of laying down and defining the requirements which must be satisfied, and the conditions which must be met, by industrial establishments and installations in relation to fire safety, fire prevention and the provision of an adequate response in the case of the outbreak of fire, limiting its spread and enabling it to be extinguished, with the aim of removing or reducing the dangers or losses such fire could cause.

In order to achieve these objectives, the conditions which must be met by industrial establishments in relation to their location and the intrinsic risk of the industrial activity being carried out therein shall be regulated.

The acceptance of certificates, conformity marks, test protocols, etc, for the marketing of goods from other EU Member States is contained in Article 15.

9. Brief Statement of Grounds

The draft forwarded is basically the same as that the subject of Notification No 2000/542/E, the text of which has been annulled by default in the transposal procedure. The reasons for its promulgation are those laid down in this notification, to achieve a sufficient level of fire safety in industrial establishments in compliance with the mandate contained under heading III of Industrial Law No 21/1992.
