90/0295/UK

5. Title

Light rapid transit system signal for shared intersections
and pelican crossing tr0162

6. Products Concerned

Light rapid transit system signal

7. Notification Under Another Act

-

8. Main Content

This specification details the functional, official and constructional requirements of a restrictive signal for the light rapid transit system when integrated into an urban environment at shared intersections and pelican crossings.

9. Brief Statement of Grounds

Direction 36 of the traffic sign regulations and general directions 1981 and direction 6 of the 'pelican' pedestrian crossing regulations and general direction 1987 require that traffic signals placed on or near a road, be of a type which has been approved on behalf of the secretary of state for transport.

Approval is issued against departmental specifications and this document specifies the requirements for the light rapid transit system signal.
