4. Notification Number

2007/0271/F - V20T

5. Title

Draft Order on the characteristics of receiving apparatus for radio services broadcast in digital mode by terrestrial radio relay or by satellite in band L or band S

6. Products Concerned

Receivers for radio services broadcast in digital mode by terrestrial radio relay or by satellite.

7. Notification Under Another Act

No

8. Main Content

The aim of the draft Order is to specify the technical characteristics required of digital radio receivers placed on the market in France.

Depending on the frequency bands in which these receivers operate, these characteristics conform to at least one of the standards applicable to the broadcasting of digital radio services, which are also laid down by Order (see notification No [to be added]).

The technical characteristics laid down in this way are not obligatory: equipment that does not comply with these characteristics can still be sold in France, provided its non-conformity is drawn clearly and visibly to the attention of consumers (see Article 1, subparagraph 2, of the notified draft Order).

9. Brief Statement of Grounds

The notified draft Order has undergone very broad public consultation (around a hundred contributions have been received), resulting in the support of virtually all those working in the radio sector.

In order to guarantee the free movement of goods within the Single Market, a mutual recognition clause has been included in this draft Order (Article 1, subparagraph 3).

10. Reference Documents - Basic Texts

a) Article 12 of Act No 86-1067 of 30 September 1986, as amended, on the freedom of communication (text annexed to this document).

11. Invocation of the Emergency Procedure

-

12. Grounds for the Emergency

-

13. Confidentiality

-

14. Fiscal measures

-

15. Impact assessment

-

16. TBT and SPS aspects

a) No

b) ii) The draft conforms to an international standard.
