4. Notification Number

94/0009/F

5. Title

Regulation annexed to the Order of 23 November 1987 on ship safety.

Volume 7: provisions relating to cargo.

6. Products Concerned

The present volume concerns cargoes transported on board ships.

7. Notification Under Another Act

-

8. Main Content

The present volume establishes the minimum requirements for safety and the prevention of pollution for cargoes loaded on board ships, where they constitute a danger for the ship, the people on board or the environment.

In addition to the general provisions applicable to all types of transportation, the present volume contains three distinct parts:

- transportation other than in bulk (including, in particular, the transportation by sea of dangerous goods which have been made the subject of Notification 93/0092/F),
- bulk transportation.,
- safety of the transported material.

9. Brief Statement of Grounds

The present volume is the result of the rewriting of the existing volume 7, which consisted of a 'grooming' and complete overhaul of that volume in order to bring together all the minimum requirements relating to cargoes loaded on board ships, including some relevant texts from the International Maritime Organisation.

For the purposes of the implementation of the present regulation and as a matter of urgency, one should recall the provisions already made in France, following the opinions issued by the Commission in connection with Notifications 90/0027/F to 90/0030/F, establishing the equivalence clauses for the inspection bodies (classification companies, laboratories), and the standards relating to the equipment and materials.

10. Reference Documents - Basic Texts

Reference documents - basic texts:

- original volume 7 (enclosed),
- division 411 (already communicated to the Commission: see Notification 93/0092/F).

11. Invocation of the Emergency Procedure

No.

12. Grounds for the Emergency
