8. Main Content

8.1 Content: Protocolises and regulates the periodic inspection and review process for liquefied petroleum gas installations on domestic, collective or commercial premises in the Autonomous Community of Madrid. Lays down provisions with the aim of improving safety conditions for gas installations, with regard to the location of apparatus, the mechanisms needed to minimise the effect of gas extractors in kitchens, and safety with regard to the connection of mobile apparatus. Introduces the system for the commissioning of gas apparatus.

8.2 Mutual recognition clause:

9. Brief Statement of Grounds

To extend and systematise the periodic inspection and review of liquefied petroleum gas installations, with regard to that laid down in national regulations. To lay down additional conditions to those which currently exist in the field of safety in premises in which gas installations and their connections to the supply network are installed. To extend the existing procedure for the commissioning of gas apparatus with the objective being that the installation is made safer.
