**8. Main Content**

Article 1 of the notified draft Order extends to the  
signatory countries of the agreement founding the European  
Economic Area the recognition of equivalent standards  
envisaged in the Order of 18 June 1991 for Member States of  
the European Union (introductory paragraph of Annex III).  
Article 2, which amends point 1.3 of Annex III to the Order  
of 18 June 1991, defines the schedule of conditions for  
roller brake meters used in technical testing centres.

## 9. Brief Statement of Grounds

Directive 77/143/EEC, amended by Directives 92/54/EEC and 94/23/EEC, envisages in particular a collection of measures relating to periodic technical testing of vehicle brake systems. In order to permit the application in France of these Directives it seems necessary to clarify the schedule of conditions for testing apparatus which may be used in state-approved technical testing centres. This is the subject of the notified draft Order. This Order, of course, only regulates apparatus within technical testing centres.

Furthermore, it seemed reasonable to recognize the equivalent standards in force in the signatory countries of the agreement founding the European Economic Area as this had been done for the Member States of the European Union in the Order of 18 June 1991 (introductory paragraph of Annex III).

## 10. Reference Documents - Basic Texts

- Directive 77/143/EEC concerning technical testing of motor vehicles, amended by Directives 92/54/EEC and 94/23/EC;
- Articles R.79, R.117-1, R.119-1 to R.122 of the highway code;
- Standard NF-R-63 701 (1990 edition);
- Schedule of charges for roller brake meters;
- Order of 18 June 1991 concerning implementation and organization of technical testing of vehicles of weight not in excess of 3.5 tonnes.
