## 4. Notification Number

2016/0220/E - B00

## 5. Title

Draft Order approving complementary technical instructions IET-ITC 09.0.01 'Electrical installations in mines and legally related activities. Terminology', IET-ITC 09.0.02 'Electrical installations in mines and activities with a regulatory association. Common technical specifications for all installations', IET-ITC 09.0.03 'Electrical installations in mines and related activities. Technical specifications for installations in underground laboratories', and IET-ITC 09.0.04 'Electrical installations in mines and legally related activities. Technical specifications for electrical installations in underground laboratories with potentially explosive environments' in the General Regulation on Basic Standards of Mining Safety

## 6. Products Concerned

The main aim of the draft ministerial order is to adapt the technical requirements laid down for electrical installations in mines to technical developments.

## 7. Notification Under Another Act

-

## 8. Main Content

This draft ministerial order approves four complementary technical instructions: IET-ITC 09.0.01, related to terminology; IET-ITC 09.0.02, related to common specifications for all electrical installations in mines and legally related activities; IET-ITC 09.0.03, related to specific technical specifications for electrical installations in underground laboratories and legally related activities; and IET-ITC 09.0.04, related to specific technical

specifications for electrical installations in underground laboratories with potentially explosive environments and legally related activities.

#### **9. Brief Statement of Grounds**

The main aim is to simplify existing provisions concerning electrical installations and adapt them to technical developments, within the framework of the General Regulation on Basic Standards of Mining Safety [Reglamento General de Normas Básicas de Seguridad Minera], approved by Royal Decree 863/1985 of 2 April. The applicable normative references are updated and the requirements laid down for both electrical equipment to be used in potentially explosive environments and with regard to protecting the health and safety of workers from electrical hazards are adapted.

#### **10. Reference Documents - Basic Texts**

No basic text(s) available.

#### **11. Invocation of the Emergency Procedure**

No

#### **12. Grounds for the Emergency**

-

#### **13. Confidentiality**

No

#### **14. Fiscal measures**

No

#### **15. Impact assessment**

Generally speaking, neither impacts on consumers or competition nor impacts resulting from the increase in administrative burdens are expected. The complementary technical instructions will apply to new installations, their modifications and extensions; existing installations, before their entry into force, that are subject to substantial modifications or repairs and to their extensions; existing installations when they entail a serious risk due to their condition, situation or characteristics.

#### **16. TBT and SPS aspects**

TBT aspect

No - the draft is neither a technical provision nor a conformity assessment procedure.

No - the draft has no significant impact on international trade.

SPS aspect

No - the draft is neither a sanitary nor phytosanitary measure.
