8. Main Content

Key Words: Street Works Reinstatement Specification

The Specification is the second edition of a code of practice with the same title that was published in 1998 ("the 1998 Code"). It gives practical guidance about the standard of reinstatement required to comply with duties laid upon undertakers of street works in Northern Ireland in respect of materials, workmanship, and performance standards. It makes provision for works in carriageways, footways and verges, identifies different types of acceptable materials, and contains requirements for compaction and remedial works.

The UK will fulfil its obligations under Article 12 of Directive 98/34/EC when this Specification is officially published.

9. Brief Statement of Grounds

The Specification takes into account developments since the publication of the 1998 Code (see 8. above). It is based on a similar code of practice that applies in the remainder of the United Kingdom ("the 2002 Code"). It will extend to Northern Ireland the requirements notified previously (2002/0093/UK) and applied under the provisions of Parts III and IV of the New Roads and Street Works Act 1991 in the remainder of the United Kingdom, with regard to the reinstatement of openings in highways (the 2002 Code).
