5. Title

The Meters (Certification) Regulations

6. Products Concerned

Electricity Meters

7. Notification Under Another Act

-

8. Main Content

A. The Electricity Act 1989 provides for the certification of meters to measure the quantity of electricity supplied to certain categories of customer. These regulations specify how authorised examiners may be appointed to certify a meter the standards to which the meter must conform, the tests which it must pass and the procedures to be followed. The regulations do not cover meters which are deemed to be certified under The Measuring Instruments (EC Requirements) (Electrical Energy Meters) Regulations 1995 (SI 2607/1995). The regulations should be read in conjunction with The meters (Approval of Pattern or Construction and Manner of Installation) Regulations that are submitted with these regulations.

B. The United Kingdom would like to be informed by other Member States of their own standards or regulations offering an equivalent level of safety and security

9. Brief Statement of Grounds

Certification is required to establish that the meters to which certification applies have attained an acceptable standard of accuracy before they are put into use.

10. Reference Documents - Basic Texts

- i. Draft Regulations. The Meters (Certification) Regulations
- ii. The Meters (Certification) Regulations were previously notified as Notification 94/0033/UK which were not brought into force.
- iii. -

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No
