5. Title

The Food Hygiene (Wales) (Amendment) Regulations 2008

6. Products Concerned

National measures related to the production of minced meat from chilled meat, for human consumption.

7. Notification Under Another Act

Regulation (EC) No. 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin.

8. Main Content

The proposed national measure would enable the continuation of traditional methods of production of minced meat by dissatisfying the requirements of Regulation (EC) 853/2004, Annex III, Section V, Chapter III, paragraph 2(b).

9. Brief Statement of Grounds

This issue is on the Commission's list for review but the earliest date that any change to the Regulation could, realistically, be made is 2010. To enable UK manufacturers to produce minced meat from meat that has been matured for a longer period than is currently allowed in Regulation (EC) 853/2004, the UK proposes to introduce a provision in national legislation that would allow this traditional practice. UK considers that the hygiene and HACCP requirements set out in Regulation (EC) 852/2004, as well as the requirements of Regulation (EC) 2073/2005 on the microbiological criteria for foodstuffs, would suffice to ensure safe food. Also, UK has a habit of thoroughly cooking minced meat before consumption. Research commissioned by the UK shows that there is no scientific basis to support the current requirements regarding the number of days between slaughter and the mincing of meat.

10 b) The basic texts have already been submitted with a parallel notification of regulations for England (2007/0493/UK).
