5. Title

Manual of Contract Documents for Highway Works
Series 0800 and Notes for Guidance - Road Pavements - Unbound, Cement and Other Hydraulically Bound Mixtures

6. Products Concerned

All products and services that are normally used for the construction of highways and ancillary structures on the UK Strategic Trunk Road Network.

7. Notification Under Another Act

-

8. Main Content

The specification for highway works is the basis of the contract documentation used by the Highways Agency for new highway construction works and maintenance on the UK Strategic Trunk Road Network.

Series 800 and accompanying Notes for Guidance sets out the needs of the Overseeing Organisation with respect to design and specification of the road pavement.

9. Brief Statement of Grounds

The use of these documents is mandatory for all trunk roads, including motorways, in England. Other UK Overseeing Departments incorporate certain amendments to take account of local conditions.

This document will replace the existing Series 0800 and Notes for Guidance and ensure best practice in road and bridge construction while complying with all relevant EU Directives, as well as ensuring the appropriate levels of governance for the highway authority.
