5. Title

Decision of the French Electronic Communications and Postal Regulatory Authority establishing the conditions of use of radio frequencies in the 703 MHz-733 MHz and 758 MHz-788 MHz frequency bands for terrestrial systems capable of providing electronic communications services

6. Products Concerned

Terrestrial systems capable of providing electronic communications services

7. Notification Under Another Act

-

8. Main Content

The draft decision establishes the conditions of use for the 703 MHz-733 MHz and 758 MHz-788 MHz sub-bands for terrestrial systems capable of providing electronic communications services.

9. Brief Statement of Grounds

The 694 MHz-790 MHz band (700 MHz band), hitherto used for broadcasting television services (TNT), is currently the subject of international work to enable it to be used by European mobile networks. In France, the Prime Minister announced at the end of 2014 that the 700 MHz band would be reallocated to the mobile service. Thus, regarding the allocation of the 703 MHz-733 MHz and 758 MHz-788 MHz sub-bands to mobile operators, the notified draft decision aims to define the technical conditions for the use of the frequencies by mobile networks, based on the technical parameters of ECC/DEC Decision (15)01 of the CEPT.

10. Reference Documents - Basic Texts

Reference(s) to basic text(s): ECC/DEC Decision (15)01 of the European Conference of Postal and Telecommunications Administrations (CEPT) of 6 march 2015 Harmonised technical conditions for mobile/fixed communications networks in the band 694-790 MHz, including a paired frequency (2x30 MHz) and an optional unpaired frequency arrangement (Supplemental Downlink)

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No

15. Impact assessment

-

16. TBT and SPS aspects

TBT aspect

No - the draft is not a technical provision or a conformity assessment procedure.

SPS aspect

No - the draft is neither a sanitary nor a phytosanitary measure.
