8. Main Content

Draft revision of the Standard Assessment Procedure. The revision includes a Carbon Index, based on the calculated carbon dioxide emissions for space and water heating, the attainment of a specified level of which will be one of the methods of demonstrating compliance for dwellings with the Building Regulations for Conservation of Power. The revision also updates the various data tables that are used in the calculation.

The UK will fulfil its obligation under Article 12 of Directive 98/34/EC when the revised Standard Assessment Procedure is officially published. The DETR Circular issued at the time of publication of the Approved Document that implements the Regulations shall contain a reference to this Directive.

9. Brief Statement of Grounds

This is part of a programme of changes aimed at maximising the Building Regulations' contributions to achieving UK targets for reducing carbon dioxide emissions.
