6. Products Concerned

Food and drink provided in school lunches and at times 'other than lunch' e.g. breakfast and after-school clubs, vending machines, tuck-shops.

7. Notification Under Another Act

-

8. Main Content

The technical regulations set out: 'food based' standards for school lunches (interim) and other school food and drink that must apply in all local authority maintained primary and secondary schools in England from September 2007; final food based and nutrient based standards for school lunches will come into force no later than September 2008 in primary schools and 2009 in secondary schools.

9. Brief Statement of Grounds

The nutritional standards for school food are a key element of the Government's programme to improve the quality of food and drink provided in schools. Better food in schools will make a major contribution to improving the health of children and young people. Healthier food in schools will also help stop the rise in obesity in children and young people which is a Government target (Public Service Agreement) shared between the Department for Education and Skills and the Department of Health. Heart disease, stroke, joint problems and type 2 diabetes are all direct effects of obesity which has increased in children aged 2 to 10 years from 9.6% in 1995 to 13.7% in 2003.

10. Reference Documents - Basic Texts

a) New nutritional standards for school lunches and other school food were announced by the Government on 19 May 2006 in the attached document – "Nutritional Standards for School Lunches and Other School Food". Annex A of that document sets out the standards that will be covered by these Regulations.
