8. Main Content

The purpose of this draft decree is to align the industrial characteristics of gaming machines in Castile-Leon with those in other Autonomous Communities and the technical conditions of said machines under the Market Unity Guarantee Act 20/2013 of 9 December, amending the technical requirements for type "B" or amusement machines issuing a prize, concerning the maximum prize that those machines can issue, the admittance of 50 euro notes and the maximum number of games that these machines can play. In addition, in relation to this type of machine, a differentiation should be made between the interconnection of machines and the operation of games hosted by servers linked to these machines, with common game parameters. These amendments are transferred to Decree 17/2003 of 6 February in order to incorporate the approval of technical systems and type "B" machines providing games hosted by IT servers, as well as the registration of these games, and the managing and operating companies for said technical systems, with a view to their inclusion on this register.

9. Brief Statement of Grounds

The draft is submitted in accordance with the legal mandate set out in Article 9 of Act 4/1998 of 24 June regulating gaming and betting in Castile-Leon, which makes the Government of Castile-Leon responsible for regulating forms of gaming and betting included in the catalogue. These games include those played using gaming machines. The gaming machine subsector is constantly changing, thereby requiring the Administration to carry out reforms to legislation in order to prevent the stagnation of this subsector.
