### 4. Notification Number

2006/0061/E - N20E

### 5. Title

Draft Decree laying down additional safety measures for electric substations

### 6. Products Concerned

The draft Decree put forward aims to lay down additional safety measures for electric substations located within the territorial boundaries of the Autonomous Community of Madrid.

### 7. Notification Under Another Act

-

### 8. Main Content

The draft Decree aims to lay down additional requirements to the safety conditions and technical guarantees laid down in national legislation for power stations, substations and transformer stations.

### 9. Brief Statement of Grounds

The continual increase in energy consumption that has been taking place in the Autonomous Community of Madrid has caused a considerable increase in installed electrical power which has brought with it a significant increase in short-circuit powers. This situation has worsened due to the continual expansion of the urban area, which has been absorbing a large number of substations in outlying areas which were formerly located on the outskirts of Madrid but which are now firmly positioned within the urban agglomeration.

For these reasons, it has become necessary to lay down additional requirements to the safety conditions and technical guarantees laid down in national legislation for power stations, substations and transformer stations.

### 10. Reference Documents - Basic Texts

- Law No 21 of 16 July 1992, on Industry.
- Law No 54 of 27 November 1997, on the Electricity sector.
