5. Title

Draft Royal Decree regulating the marketing of certain plant protection products.

6. Products Concerned

In addition to chemical products, it also includes biological control organisms.

7. Notification Under Another Act

-

8. Main Content

Establish the marketing requirements for certain plant protection products and establish an official register for the public authorities and any other interested parties.

9. Brief Statement of Grounds

Given the time elapsed and the experience gained, specific aspects of the marketing of plant protection products need to be altered to guarantee their behaviour in conditions of good phytosanitary practice and, owing to their nature and functioning, ensure that they do not pose a risk to the health of people or animals, for the environment, or for crops or their products.

It should be noted that these plant protection products include a very varied group of products, such as biological control organisms, products that promote the strength and resistance of plants, crops, seeds, and others, such as elicitors, but do not include phytosanitary products, fertilisers or biocides.
