8. Main Content

The draft Order replaces the time limits established in the Order of 12 July 1983, for sterilised cream, UHT cream and frozen cream, between the date of minimum durability and the date of manufacture.

9. Brief Statement of Grounds

The amendment introduced by the draft Order stems from the general regulation on labelling, presentation and

advertising of food products, adopted by Royal Decree No 1334/1999 of 31 July, which requires an indication of the date of minimum durability and the manner in which it should be indicated. Furthermore, the application of the 'hazard analysis and critical control points' system obliges manufacturers to determine the specific commercial lifespan of the products they produce and to guarantee that they remain valid throughout that time period.
