8. Main Content

Title I of the draft Decree corresponds to the measures necessary to implement Article 25 of Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food (penalties).

The following titles correspond to upholding the national measures previously contained in Decree No 92-631 of 8 July 1992 on materials and articles intended to come into contact with foodstuffs, products and drinks for human or animal consumption (Notification No 1991/433/F). They are intended to apply to materials and articles for contact with feedingstuffs and to lollipops intended for young children, which are identical obligations to those imposed on materials and articles for contact with foodstuffs. They do not add any new provisions in relation to Decree No 92-631 of 8 July 1992, which received approval from the Commission.

The draft creates legal certainty by establishing a maximum period for the French Food Safety Agency to examine files submitted to them within the framework of materials and articles for contact with food (this period is the same as that granted to the European Food Safety Authority by Regulation (EC) No 1935/2004). The draft has received a favourable opinion from the French Food Safety Agency.
