5. Title

Decree on the technical specifications of signal modulation and channel encoding for the terrestrial broadcasting of data with frequency modulation

6. Products Concerned

Data services associated with frequency modulation radio services (broadcasting signal characteristics)

7. Notification Under Another Act

-

8. Main Content

The draft decree aims to define the technical characteristics implemented for the functions of the signal modulation and channel encoding functions at the broadcasting of data associated with FM radio services. These characteristics must comply with the specifications defined by the international standard IEC 62106, commonly referred to as "RDS" (Radio Data System).

9. Brief Statement of Grounds

The draft decree consists of permanently authorising the RDA standard, already authorised experimentally by the Conseil supérieur de l'audiovisuel [High Audiovisual Council] some years ago. It follows extensive public consultation launched by the Government to obtain the opinion of the parties concerned.

10. Reference Documents - Basic Texts
