8. Main Content

This draft order is the third notification of the content of the annex to the Order of 28 February 1989, introducing appendix 1 in standards NFU 42001 and standard NFU 44-203 on calcium and/or magnesium conditioners.

9. Brief Statement of Grounds

The French regulations on fertilizing material for agriculture seeks to ensure that products which have been conclusively shown to be harmless to humans, animals and the environment can be placed on the market. For certain everyday products, whose composition and properties are known and which are shown to be harmless by periodic inspection, marketing is authorized provided that the rules governing labelling and trade names as laid down in the standards are observed, so as to ensure that the users of these products are properly informed and to guarantee the fairness of commercial transactions.
