## **5. Title**

The Civil Enforcement of Parking Contraventions (Approved Devices) (Wales) Order 2007

## **6. Products Concerned**

An approved device must include a securely mounted camera connected by secure data links to a recording system. The camera must be capable of producing in one or more pictures a legible image or images of the vehicle in relation to which a parking contravention was committed which show its registration mark and enough of its location to show the circumstances of the contravention. The device must include a recording system of a specified standard. The device and its visual counter must be accurate within plus or minus 10 seconds over a 14-day period.

## **7. Notification Under Another Act**

-

## **8. Main Content**

The main content of the Order is to specify a description of a device that is an approved device for the purpose of enabling local authorities to take enforcement action against vehicles that commit parking contraventions. The Welsh Assembly Government will determine applications for the certification of such devices.

## **9. Brief Statement of Grounds**

The Order describes the minimum standards of a device that may be used by local authorities to take enforcement action against parking contraventions. Evidence obtained from these devices will be used to issue Penalty Charge Notices to the owners of vehicles that have parked unlawfully. Without the equipment, local authorities would have to rely upon the information given by a Civil Enforcement Officer. This would be unsatisfactory and would lead to more challenges, more delays and higher costs.
