5. Title

Draft order establishing State metrological control of instruments designed to measure the concentration of alcohol in exhaled air.

6. Products Concerned

Breathalyzers

7. Notification Under Another Act

-

8. Main Content

This standard aims to define the construction principles, the operating conditions and the methods and means of testing of instruments, known as 'breathalyzers', which are designed to measure the concentration of alcohol in exhaled air.

9. Brief Statement of Grounds

This draft aims to establish metrological regulatory guidelines for this category of measuring instruments with the intention of providing the police with the authority to use instruments which, by belonging to a type or model submitted for metrological control, are suitable for measuring the levels of detectable alcohol in drivers of motor vehicles when tested by the police in their function of supervision and control.
