#### **4. Notification Number**

2008/406/F - C00P

#### **5. Title**

Order on the simplified authorisation procedure for placing relatively harmless natural preparations on the market

#### **6. Products Concerned**

Natural plant protection preparations manufactured exclusively from one or more plants or other natural elements not genetically modified laid down in a list and obtained using a process accessible to all end users.

#### **7. Notification Under Another Act**

Not Applicable

#### **8. Main Content**

The purpose of this Order is to lay down the terms of the authorisation procedure for the placing on the market of relatively harmless natural preparations (content of the authorisation application or authorisation modification dossiers, terms of examination and provisions on packaging), to wit manufactured exclusively from one or more plants or other natural elements not genetically modified laid down in a list and obtained using a process accessible to all end users. This draft text has been drawn up in application of a draft Decree on the marketing procedure applicable to relatively harmless natural preparations, currently the subject of a concomitant notification to the European Commission within the framework of Directive 98/34/EC.

#### **9. Brief Statement of Grounds**

This text details the content of dossiers regarding relatively harmless natural plant protection preparations for which marketing authorisation is requested (composition, identity, chemical properties of the product, toxicological and ecotoxicological studies of the preparation) and the labelling and packaging requirements of such preparations, once authorised. The preliminary authorisation procedure is justified to the extent that, although these are so-called "natural" preparations, they may nonetheless have a negative impact on health and the environment. It is, however, a simplified procedure compared with the authorisation procedure for placing plant protection products on the market.
