////

4. Notification Number

92/0073/E

5. Title

Technical specifications for multiline systems which may be used as subscriber terminal equipment.

6. Products Concerned

Communication systems which, incorporating switching functions, are capable of directing incoming and/or outgoing traffic between links with the switched telephone network (STN) and extension lines.

7. Notification Under Another Act

-

8. Main Content

The main aim of these technical specifications is to establish the testing conditions and requirements to be met by multiline systems which may be connected to the switched telephone network (STN) as subscriber terminal equipment.

9. Brief Statement of Grounds

These technical specifications are justified by the need to set minimum requirements allowing the marketing of the products referred to at 6 above, following testing in accordance with the methods laid down in the technical specifications.
