8. Main Content

The regulation regulates bets within the scope of the Autonomous Community of Extremadura, which takes into account the different varieties of this activity, the framework for authorisations, the guarantees required of betting organisers and operators, their obligations, the establishments and premises where they can be carried out, staffing, equipment, the placement of bets, the distribution of prizes, the penalties and the monitoring and inspection of bets. The standard also provides for the express prohibition of bets that, in themselves or due to the events under which they are made, infringe upon rights and freedoms, and those which are based on the commission of crimes, misdemeanours and administrative offences, at events prohibited by law or political or religious events.

Title IV of the draft, "Betting equipment", contains the standards on the technical systems and elements. It also contains the conditions to be met by the companies to obtain the approval for the betting equipment and the administrative procedure to be followed to obtain the approval and for the possible cancellation of the registration of the approved equipment.

9. Brief Statement of Grounds

Due to the increasing diversification of games, the need to adapt this sector to the new technological challenges and the search for ways that better meet the players' expectations is causing a profound transformation in the gaming sector, thereby making it necessary and appropriate to approve the Autonomous Community of Extremadura's betting regulation.

This decree seeks to cover on-site gambling within the Autonomous Community of Extremadura, and seeks to create a framework that is favourable to the establishment of this gaming activity in this region, given that, up to now, the Gaming Law in Extremadura had not been developed in this field.

10. Reference Documents - Basic Texts
