8. Main Content

Articles 1 to 6 establish the conditions for the delivery and use of sodium tetrathiocarbonate. The proprietary products containing this substance may only be delivered to those persons or bodies who are so authorized and who shall remain the only ones qualified to use them. The person in charge of treatments must have received technical training.

9. Brief Statement of Grounds

Sodium tetrathiocarbonate is part of the composition of a trade proprietary product which is designed to be used for disinfecting the ground. It is a generator of carbon sulphur. Rigorous precautions must be taken when using this product, and, because of the high toxicity of carbon sulphur, the product must be restricted to certain users.
