8. Main Content

The subject of the present proposal amends ITC MIE-AP5 by
removing from its articles the requirement to comply with
standard 23.110, in order to obtain the certificate of
conformity with the regulation on pressurised apparatus.
Also clarified, in a temporary fashion, until said
requirements are included in the fire safety regulation, are
the requirements to be met by the maintenance companies and
the reloading operations.

9. Brief Statement of Grounds

The main reason for the proposal is, as justified in the proposals preamble, is the avoid the manufacturer having to justify compliance with a standard in two regulations.
