#### **4. Notification Number**

2001/78/UK - VOOT

#### **5. Title**

UK Voluntary National Specification 2111 Performance parameters for Scanning Telemetry and Telecontrol Systems operating in the band 457.5 MHz to 464.0 MHz Administered by the Radiocommunications Agency

#### **6. Products Concerned**

Fixed terrestrial telemetry and telecontrol radiocommunications equipment.

#### **7. Notification Under Another Act**

-

#### **8. Main Content**

In the absence of a relevant ETSI standard for this frequency band this specification takes the essential parameters identified in the ETSI Candidate Harmonised Standards (EN 300 086-2 and EN 300 113-2), and supplies relevant numerical limits for these parameters. These limits are taken wherever possible from relevant European documents, and in other cases have been calculated for this specific frequency band. This specification also includes a number of "non-essential parameters", as do the ETSI standards, which are included for reasons of spectrum efficiency and are used in the UK national frequency assignment process. The following wording is also shown on the cover "98/34/EC Notification Number".

#### **9. Brief Statement of Grounds**

To provide a guide to manufacturers as to the parameters and limits that may be required for fixed terrestrial scanning telemetry and telecontrol radio equipment to conform to article 3.2 of the R&TTE Directive, and to additional parameters used in the UK licensing and assignment regime. This VNS is produced in the absence of any ETSI standard and will be used as an interim advisory specification to facilitate access to this band for fixed terrestrial scanning telemetry and telecontrol systems. The European Commission are advised that manufacturers are being encouraged to initiate ETSI work items to produce ETSI standards for the service, which will coincide with the frequency realignment of the 450 – 470 MHz band. This will bring the channel arrangement into line with the rest of Europe. The UK will withdraw VNS 2111 to coincide with realignment.

#### **10. Reference Documents - Basic Texts**

UK Voluntary National Specification, version 1.0 dated 09 February 2001.

Electronic file "2111B 0001 02.doc".

#### **11. Invocation of the Emergency Procedure**

No

#### **12. Grounds for the Emergency**

-

**13. Confidentiality**

No

**14. Fiscal measures**

No
