8. Main Content

This decree comprises a preamble, a repealing provision and three final provisions.

The annex to the decree comprises six sections:

- Section 1 defines the subject matter of the decree.
- Section 2 contains the model documents to be used when commissioning a lift.
- Section 3 relates to repairs and modifications, establishing the procedure to be followed when bringing a lift back into service after a significant repair.
- Section 4 relates to lift maintenance: person responsible, checks and maintenance record, procedure to be followed in the event of accidents resulting in personal injury or property damage, and change of maintenance and repair company.
- Section 5 covers all matters relating to periodic inspection.
- Section 6 relates to cases in which pit and headroom dimensions cannot be met.
- Annexes I to VIII (except Annex III) establish document formats.
- Annex III establishes the minimum scope of maintenance checks.

9. Brief Statement of Grounds

The entry into force of Royal Decree 88/2013, of 8 February, approving Supplementary Technical Instruction AEM 1 "Lifts" of the Regulation on Lifting and Handling Equipment, approved by Royal Decree 2291/1985 of 8

November, covers all matters relating to lift safety from the time of commissioning, in relation to lift service life, checks and inspections. In consideration of the different agents involved in ensuring the safety of the facility during its service life (owners, maintenance and repair companies and inspection bodies), it has been deemed necessary to establish performance standards relating to liability and the relationships between said agents, as well as certain document formats to unify the data that the bodies involved with this type of facility are required to submit to the government.
