### 8. Main Content

The purpose of this standard is to establish the quality characteristics that must be met by products made from cutting the carcasses of Iberian pigs, prepared or marketed fresh, as well as Iberian ham, shoulder and pork loin prepared or marketed in Spain, for them to be able to use the trade names established in this regulation, without prejudice to the general legislation applicable to them.

### 9. Brief Statement of Grounds

To simplify the number of trade names, considering the excess variety of labels on the market, which can cause confusion among consumers and to clarify aspects relating to products where the trade name does not correspond to the labelled product. It is also necessary to strengthen the traceability and control system, for example in relation to seals on meat products from slaughterhouses, using tamper-safe seals that identify how the animals have been bred and fed.
