This document defines the Acceptance and Tests Procedures for

**9. Brief Statement of Grounds**

The measure proposed is a purchasing specification prepared  
by the United Kingdom Department of Transport for use in its  
procurement contracts for products used in connection with  
roads. It does not lay down requirements for the placing of  
products on the UK market or for their use outside the  
contract concerned. The purpose of the measure is to ensure  
that the safety of the road user is not prejudiced and to  
make the best use of public money.
