5. Title

Draft Order updating certain Articles of the general technical requirements for road- and bridge-works with regard to concretes and steels.

6. Products Concerned

Structural concretes and steels.

7. Notification Under Another Act

-

8. Main Content

The draft technical regulation aims to adapt the Articles on structural concretes and steels of the general technical requirements for road- and bridge-works to that laid down in the regulations notified as 98/232/E.

The technical specifications which the products must comply with are laid down in general with reference to standards UNE-EN or UNE, where they exist.

The Spanish authorities are aware that when harmonised European standards resulting from standardisation mandates exist, these will replace those equivalent standards referred to in the text and will adopt the measures necessary for this.

The mutual recognition clause shall be inserted in the paragraph on materials in each of the Articles.

9. Brief Statement of Grounds

Update the abovementioned Articles which in some cases have not been revised since 1976 and in other cases since 1988 and include other new Articles on high-strength concrete and hot-rolled steel sections and sheets for metal structures.

10. Reference Documents - Basic Texts

General technical requirements for road- and bridge-works adopted by the Ministerial Order of 6 February 1976 and the Ministerial Order of 21 January 1988.

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No
