**5. Title**

Draft order developing certain aspects relating to thermal generating stations of Royal Decree 646/1991 on the limitation of emissions into the atmosphere from large combustion plants.

**6. Products Concerned**

Opacimeters. Equipment for measuring emissions of atmospheric pollutants, SO<sub>2</sub>, NO<sub>x</sub>.

**7. Notification Under Another Act**

-

**8. Main Content**

This Ministerial Order shall concern large combustion plants which generate energy, which must have equipment which enables data to be obtained on the emission of certain atmospheric pollutants.

**9. Brief Statement of Grounds**

Royal Decree 646/1991, of 22 April, which transposes directive 88/609/EEC, of 24 November, into Spanish legislation, establishes new standards on the limitation of emissions into the atmosphere of certain polluting agents originating from large combustion plants.

In accordance with the provisions of said Royal Decree, it is necessary to establish, for the thermal generating stations, the precise requirements so that, with calibrated equipment and proper processing of the data, comparable homogenous results can be obtained from the measurements.
