8. Main Content

These draft Regulations formalise the arrangements for the recognition, and acceptance for registration in Great Britain, of vehicles type approved in other EEA States to standards comparable to those which apply to vehicles in this country. They make provision for the Secretary of State to issue a mutual recognition certificate for a vehicle if he is satisfied that the national type approval of an EEA State has been granted in respect of the vehicle. The provisions are slightly different to those currently practised as they allow applications for unregistered vehicles, place a greater emphasis on meeting the requirements of national type approval and provide for an expiry date to be shown on each certificate.

We have provided recognition of equivalent standards and testing in notified draft.

9. Brief Statement of Grounds

To meet our obligations under Article 30 of the EEC Treaty thus ensuring that barriers to trade do not exist within the EEA on the basis of their nation of origin and also to formalise current arrangements.
