s
de
:

Order regulating the State metrological control of instruments for the measurement of audible sound and acoustic calibrators, in their conformity assessment, verification after repair or modification and periodic verification phases.

6. Products Concerned

The proposal affects audible sound meters, known as sound level meters, personal sound exposure meters, known as exposure meters, and the acoustic calibrators used therewith.

7. Notification Under Another Act

-

8. Main Content

The notified technical regulation lays down specific regulations from the point of view of State metrological control as laid down in Article 7 of Metrology Act No 3 of 18 March 1985 for the aforementioned instruments.

The draft provides for the application of the following metrological controls to the aforementioned measuring instruments:
assessment of conformity to the essential metrological and technical requirements for their marketing and commissioning (previously known separately as model approval and initial inspection)

Periodic verification

Verification after repair or modification

Key words in the draft:

sound level meters.

sound exposure meters, known as exposure meters

acoustic calibrators
