3. Originating Department

Ministère des Technologies, de l'Information et de la Poste

4. Notification Number

95/0203/F

5. Title

SP/DGPT/ATAS/30: Technical regulation applicable to terminal equipment for plesiochronous microwave beams in the 13 GHz band.

6. Products Concerned

The equipment concerned is the microwave beams used by radio beams for the transmission of plesiochronous digital signals and operating in the 12.75 GHz to 13.25 GHz band.

7. Notification Under Another Act

-

8. Main Content

This approval specification covers the microwave beams which are used in the 12.75 - 13.25 Hz frequency band.

9. Brief Statement of Grounds

Notification of this draft, justified with relation to the correct use of the radio spectrum, is necessary because the 12.75 - 13.25 Hz frequency band has just been opened in France. The results of tests carried out in the laboratories designated by other Member States are recognized as valid, in accordance with article R20-18 of decree no. 92116 of 4 February 1992, concerning the approval of telecommunications terminal equipment, their connection conditions and the admission of installers.

The French Authorities undertake to correct this draft when an ETSI standard concerning this subject is adopted.
