8. Main Content

8. The draft order is being adopted to apply Decree 2001-387 of 3 May 2001 on the inspection of measurement devices. It is intended to update French regulations on electricity meters.

The order does not include any provisions relating to the market placement or commissioning of electricity meters used in domestic, commercial or light-industrial settings, which are covered by Directive 2004/22/EC of 31 March 2004 on measurement devices, and the corresponding transposing texts.

That directive does not cover heavy-industrial meters or the methods for inspecting meters in domestic, commercial or light-industrial settings after they have been commissioned, which are covered by this draft order.

The draft order lays down the applicable inspection procedures selected from among those laid down in the aforementioned Decree of 3 May 2001.

Electricity meters legally manufactured in another Member State of the European Union, Turkey, another State party to the agreement on the European Economic Area or a State having a recognition agreement, and that offer equivalent guarantees, shall be accepted.

9. Brief Statement of Grounds

This draft order is intended to update the regulations for this regulated category of measurement devices.
