7. Notification Under Another Act

-

8. Main Content

The notified draft regulation lays down a conformity certification procedure for road signs for temporary use not subject to CE marking pursuant to Directive 89/106/EC and the technical system of reference related thereto. It provides a mutual recognition procedure for manufacturers in other Member States creating a certificate of equivalence authorising the marketing in France of products having equivalent safety guarantees and fitness for use.

9. Brief Statement of Grounds

The rationale for this regulation stems from the need to set safety performances for this equipment throughout France for the benefit of road users and road maintenance workers, due to the particularly dangerous conditions around roadworks sites.
