4. Notification Number

94/0163/F

5. Title

SP/DGPT/ATAS/24, June 1994 edition, is entitled 'technical rule applicable to equipment operating in the frequency range 25 MHz to 1000 MHz with power levels not exceeding 10 milliwatts'.

6. Products Concerned

The equipment concerned is that for data transmission, remote control, remote sensing, remote alarm or telephony used for radioelectric installations operating in the frequency bands between 25 MHz and 1000 MHz with a radiated power of less than 10 mW.

7. Notification Under Another Act

-

8. Main Content

This rule specifies the conditions of application of I-ETS 300 220 for approval in France.

9. Brief Statement of Grounds

This draft is a new version of the notification under number 93/264/F. This new version only brings more precision to the statutory conditions for using radioelectric frequencies such as those defined by the national table of frequency distribution. The results of tests carried out in the laboratories designated by the other Member States, in accordance with article R20-18 of decree no. 92116 of 4 February 1992 concerning the approval of telecommunications terminal equipment, the conditions for connection and the approval of installers are recognised as being valid.

A draft decree, amending articles R20-1 to R 20-30, as a result of the entry into force of the agreement on the European economic area, was communicated to the Commission in May 1994.
