8. Main Content

This measure replaces the current exemption from hallmarking for the above articles where they contain small amounts of precious metal to a simpler system based on the weight of metal in a product. It replaces a system based on ascertaining the relative percentage weight of a specific precious metal in relation to the whole weight of the article.

9. Brief Statement of Grounds

The former system is considered to be unworkable and was to be repealed in any case. This amendment is also to ensure that the system is appropriate in the light of recent changes to the UK regime in respect of permitting more mixed metal goods to be hallmarked.
