#### **4. Notification Number**

2003/0269/E - N40E

#### **5. Title**

Draft Royal Decree approving Supplementary Technical Instruction MI-IP05 "Installers or repairers and companies installing or repairing liquid oil products".

#### **6. Products Concerned**

Installers or repairers and companies installing or repairing liquid oil products.

#### **7. Notification Under Another Act**

-

#### **8. Main Content**

The intention is to establish the characteristics and requirements to be met by professionals and companies constructing or repairing liquid oil product installations, with a view to achieving better quality installations which guarantee the safety of persons, goods and the environment.

In the Supplementary Technical Instruction (STI) three types of licence and company are established, those of category I, for carrying out small installations (up to 10,000 litres of class C or D products) of low risk, those of category II, for carrying out all types of oil installations, and those of category III, for the handling of installations after the installation has been put into service.

This ITC also establishes the responsibilities and obligations for companies installing or repairing liquid oil products.

#### **9. Brief Statement of Grounds**

The existing legislation in Spain on oil installations only lays down the requirements of a general nature required of companies carrying out the construction and dismantling of installations.

Bearing in mind the damage which may be caused to persons, goods and the environment by a badly executed or badly maintained oil products installation it was considered necessary to produce the present Royal Decree establishing the minimum requirements to be fulfilled not only by companies but also by professionals operating within the field of oil installations.

#### **10. Reference Documents - Basic Texts**

The regulation on oil installations was approved by means of Royal Decree 2085/1994, the final text of which was communicated within the framework of notification procedure 91/375/E

Royal Decree 1523/1999 amending the regulation and the Supplementary Technical Instructions MI-IP03 and MI-IP04, the final text of which was communicated within the framework of notification procedure 98/0545/98

#### **11. Invocation of the Emergency Procedure**

NO

#### **12. Grounds for the Emergency**

-

**13. Confidentiality**

NO

**14. Fiscal measures**

NO

**15. Impact assessment**

NO

**16. TBT and SPS aspects**

TBT-NO

SPS-NO

The draft will have no significant effect on international trade.
