## **5. Title**

The Diseases of Animals (Approved Disinfectants) (Scotland) Order 2007

## **6. Products Concerned**

Disinfectants to be used in relation to the statutory control of animal disease in Scotland.

## **7. Notification Under Another Act**

-

## **8. Main Content**

This Order revokes the Diseases of Animals (Approved Disinfectants) Order 1978 as amended in so far as it relates to Scotland to ensure that it remains in line with European legislation.

## **9. Brief Statement of Grounds**

EC animal health legislation requires that disinfectants used in connection with animal disease control procedures, and their concentrations, are authorised or officially approved. This is currently implemented by the Diseases of Animals (Approved Disinfectants) Order 1978 (as amended) in so far as it relates to Scotland. Following discussions with the industry it was agreed that a faster system of approval was needed. The aim is to remove the need for disinfectants to be approved by means of amending the legislation which is a protracted procedure and to set up a more streamlined, efficient and transparent administration process. The proposed change will remove the requirement to regularly amend the legislation but it is necessary to introduce revised legislation to implement this policy and also to ensure compliance with EU Regulations, namely the Biocidal Products Directive (BPD).
