8. Main Content

This is a technical requirements summary document that covers the minimum performance and methods of measurements for remote meter reading transmitters and receivers.

The actual methods for making measurements are covered in existing specifications: I-ETS 300 220.

Recognition and references to equivalent standards for the method of testing as been included in the notified draft.

The UK will fulfil its obligations under Article 12 of Directive 83/189 when this specification is officially published

9. Brief Statement of Grounds

This revision has been written for type approval, to UK law, to:

- a) update the specification, in line with the Agency's current Standard format and layout for the MPT 1300 series specifications.
- b) allow for changes for 100mW transmitters
- c) allow for a new licensed radio service, for remote meter reading devices.

d) adopt various editorial changes.
