**4. Notification Number**

98/0355/E

**5. Title**

Supplementary technical specifications on measuring points  
for the consumption and transport of electrical energy.

**6. Products Concerned**

The technical characteristics of measuring equipment,  
including instrument transformers and counter meters are  
defined. The technical characteristics of information  
processing equipment including reading equipment,  
concentrators, data transmission and communications equipment  
are also defined.

**7. Notification Under Another Act**

-

**8. Main Content**

This concerns the measurement of electrical energy with the  
  
appropriate accuracy both in terms of consumption and  
transport amongst generation, transport and distribution  
activities. The barriers between these activities are

therefore defined. The characteristics of measuring equipment including instrument transformers and counter meters are defined. The conditions are defined under which some of the existing equipment may continue to be used. The characteristics of the main concentrator and the secondary measuring concentrators and the procedures for checking and correcting inaccuracies by estimating measurements are also defined.

#### **9. Brief Statement of Grounds**

Directive 96/92/EC of the European Parliament and Council of 19 December 1996 on common standards for the internal electricity market introduces mechanisms for the competency in the operation thereof and the accountable separation between the various activities in the electrical sector, the application of which necessitates the implementation of a system of measures.

#### **10. Reference Documents - Basic Texts**

Royal Decree 2018/1997 of 26 December approving the Regulation on measuring points for the consumption and transport of electrical energy.

Law 54/1997 of 27 November of the electricity sector.

#### **11. Invocation of the Emergency Procedure**

No

#### **12. Grounds for the Emergency**

-

#### **13. Confidentiality**

No

#### **14. Fiscal measures**

No
